

OUR MISSION

The mission of the United Way of Lee County is to increase the organized capacity of people to care for one another. One of the ways that we do this in our community is by generating and applying necessary resources to meet basic human needs.

WHAT WE DO

The United Way functions as a fundraising organization for the non-profits we support. In doing so, we take the burden of fundraising off of those agencies so they can focus their time, energy and resources on helping more people in the community.

IMPACT AREAS

We look to improve and strengthen the community by focusing on and funding organizations and programs working in our four key impact areas, areas we believe are the building blocks for a good life: education, health, crisis, and families and communities.
