

CLIENT SUCCESS STORY

Unity Wellness Center's link+care program has enrolled 5 new Lee County patients into medical care since January 2023. These patients consist of 3 newly diagnosed, 1 return to care after 12 months, and 1 treatment naïve. These patients now have access to medical care, medications, supportive services, and any community referrals that they may need.

Unity's outreach employees visited Opelika Addictions Center, East Alabama Health Internal Medicine Residency Program, Auburn University, Auburn High School, and other service groups to educate individuals on the prevalence of HIV in the Greater Lee County area.
